

Hiring for 2010 Census in Montana

The 2010 Census is just around the corner and with that will be the hiring of a very large workforce around the nation to conduct the decennial census. Below is information I obtained from the U.S. Census Bureau regarding hiring for the 2010 Census in Montana.

The Census Bureau will be opening Early Local Census Offices (ELCOs) throughout the region (Montana is included in the 10 state Denver Regional Office) in October 2008. The ELCO for Montana will be located in Billings. Starting in the summer of 2008, the Census Bureau will be posting management and other office and/or early field positions for Early Local Census Offices on their website at <http://www.census.gov/denver/employ.html>.

When the Billings ELCO opens, they will be recruiting for temporary and/or part-time field positions such as Enumerators and Crew Leaders by advertising in local newspapers and through other media. The Recruiters for the Billings office will begin conducting testing sessions in late fall of 2008.

Montana will have two more Local Census Offices, located in Great Falls and Missoula, both of which are scheduled to open in Fall of 2009. The bulk of the positions will be temporary field positions such as Enumerators and Crew Leaders. All through 2009 and spring of 2010 the Bureau will be recruiting VERY heavily to fill thousands of field positions throughout Montana.

New positions are frequently posted on the website listed above. If interested, please check the website for further details. If you have questions, please contact the Denver Regional Census Center staff at 877-233-4776 or email korena.l.novy@census.gov.
